Cheers to a new year and another chance for us to get things right! - Oprah Winfrey

Christmas bringing loads of joy and plenty of hope for everyone was the last celebration of the year 2021. Yet again a new year and new bunch of fun and challenges getting us together, we at TIPS had a wonderful celebration of this event. We celebrated Christmas with Santa visiting us and giving us loads of gifts, hope and strength to fight against this pandemic together putting our smiles ahead. Celebrations and holidays always go hand in hand, yeah! It was time for vacation. Children enjoy celebration and holidays a lot. They express their joy, excitement and enthusiasm for the period of vacation. They also shared , their respective plans and tours for the vacation. It was indeed a splendid closure for the year 2021 and great new beginning for the year 2022.

"You are braver than you believe, stronger than you seem and smarter than you think."

-Christopher Robin

Learning Curves

Collaborative learning Together we can!

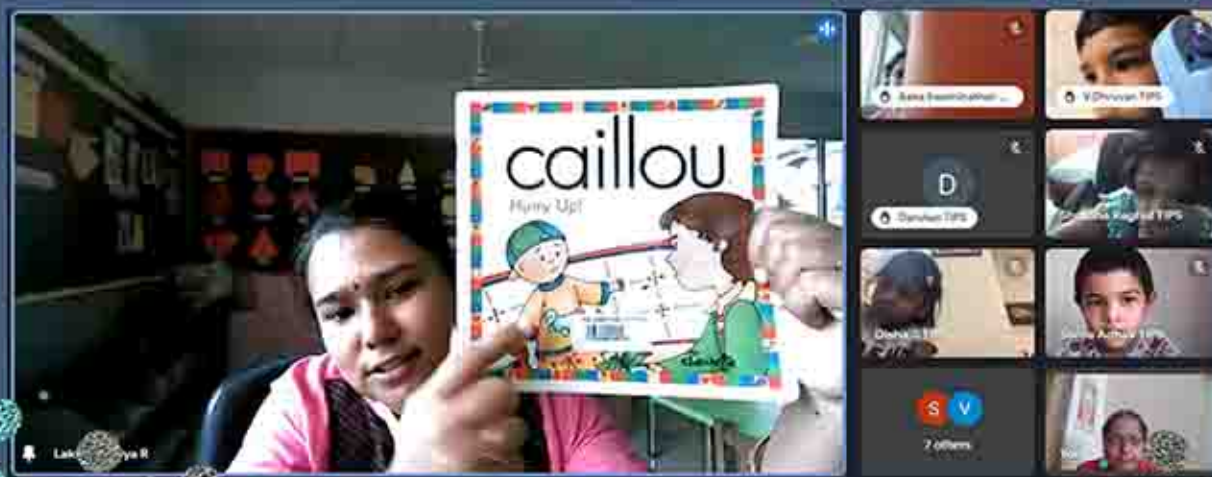

Collaborative learning is not only great fun but it facilitates ease of learning. The resources and skills of the individual students were capitalized to ensure that everybody understood what was being taught in an environment of sharing information and caring for each other's opinion and point of view. UOI helped our kids to relate with their reality of life to make connection with concept Living and non living things. It truly is a wonderful way of learning that children certainly enjoy!

Parent Chronicle

Reading is to the mind what exercise is to the body. We at TIPS whole heartedly believe in it. Every Monday we look forward to the amazing stories narrated by our parents to our young curious minds.

As a parent I was overwhelmed to narrate a story in the class. It was a great experience to be able to narrate a meaningful story "Caillou hurry up!". I am hoping all the kids might have enjoyed the story completely. Stories often create an impact on the child's thought process, so they play a great role in the event of moulding them. I am very glad that I could be a very tiny part of that wonderful event. (Ms. Lakshmi Priya- Parent of Dhruvan-KG IIA)

POCKET PHONICS

The sound way to learn to read

Phonemic Awareness is fundamental to reading. Through this unique method the children got an opportunity to improve their pronunciation spelling literacy comprehension vocabulary. With the help of picture cards, word walls and decodable, that demonstrated between pictures and letters, it put the fun back into reading!

Health & Beyond

Intelligence and skill can only function at the peak of their capacity when the body is healthy and strong.

John F Kennedy

Kids this age need physical activity to build strength, coordination, and confidence and to lay the groundwork for a healthy lifestyle. They're also gaining more control over how active they are. Due to Pandemic they were in lack of much physical activities. But now in the school, they enjoy with their peers and work socially with them. They got chance to do variety of activities like sports, dance etc. this leads to develop their sportsmanship, setting goals, meeting challenges, teamwork, and the value of practice. Our little buds enjoy play and dance tend to stay active throughout their lives.

Budding Influencer

Action speaks louder than words

Our responsibility as facilitators also includes helping children turn ideas into action. Children who take responsibility at home gives up confidence and would stand in good stead in the years to come. It also inculcates the spirit of sharing, caring and the value of work. We were glad to see that children on their own initiative helped in house hold chores, gardening, tending to pets and generally making themselves useful at home.

Potpourri

National Cake Day

Do we all really need a reason to relish on the world's most favorite dessert? However, there indeed is a day dedicated just for this lovely dish. National Cake Day! KG 2 kids got cakes and pastries of their choice. Some baked & some from the confectionary. Our kids savored the day and the cake to their heart's content.

Christmas Celebrations

Christmas is celebrated to remember the birth of Jesus Christ. Christmas day was celebrated in the campus with grandeur. Teachers enacted a drama on birth of Jesus and the children danced for the carol songs. Each classroom was beautifully decorated. Surprise visit by Santa Claus was the highlight as he gave away goodies to the children.

Look out notice

- Republic day
- world cancer day
- International day of zero
