# TIPS BEACON

THE INDIAN PUBLIC SCHOOL, COIMBATORE

## SPARK PLUG

The 75th Independence Day was truly one of a kind. The patriotism was at its best this year. Tri color filled the air in a forms manifesting the love for our nation! At TIPS the Independence Day celebration was such a joyful affair and the spirit of patriotism was evident in the fervor with which the children participated in it. The various attires of all the states were presented by the children to demonstrate that although we come from various parts of the country our hearts beat as one.

Right from patriotic songs, dances to skits, we had it all. Children left no stone unturned to display their love for the nation. The finale of each and every person associated with TIPS proudly flaunting the tricolour was truly overwhelming.

*Celebration infuse life with passion and purpose. They summon the human spirit.*  
Terrence E Deal.

75  
Azadi Ka  
Amrit Mahotsav

TIPSians across campuses celebrated the August Occasion of the 75th Independence Day, Azadi Ka AmritMahotsav, with gusto. Freedom is never given, it is won. Dressed as national leaders they paid homage to those great personalities, who laid their lives gallantly to ensure that we live in peace. We bow down to them with reverence. Our young budding stars took the national pledge and performed to patriotic songs with grace and confidence. Bus rallies were held in all our campuses to mark the importance of our beloved country's Independence Day. Our young shining stars holding our tri colour flag along with all the stakeholders of the learning community was a sight to behold.

Ms. Meena Sundar

## LEARNING CURVE

Music is an expression of sound that reflects the beauty of life"

*Dance - Expression and Interpretation. When you dance, you should not simply be going through a series of moves; you should be giving a performance. Dance is another means of expression. It should convey a story or an emotion; it should make the audience feel something, communicate with them on another level.*

*Through dance, kids learn how to express their emotions and watch how their peers perform, which allows them to identify emotions in others so they can become more empathetic.*

*Musical expression, that element of musical performance which is something more than mere notes. Western music is notated on a system that specifies pitch and the relative lengths of notes. Factors such as speed or dynamics are usually indicated only by words or abbreviations.*

*Music can help children to 'hear' what certain feelings sound like, and they can learn to tell what emotion is evoked by a piece of music. Improvising with music can help a child to get in touch with and/or express a feeling he or she may be experiencing at the time; whether that may be happy, sad, scared, or mad.*

*Our KG 1 theme is HOW WE EXPRESS OURSELVES, Children are learning about various forms of dance and music and explore their expressions*

## PARENT CHRONICLES

*I am proud to be a part of The Indian Public School. I am travelling with TIPS since 2017. My elder daughter is in Grade 2 now. This academic year I have taken admission for my younger daughter in LKG. Initially, I had doubts that how my daughter is going to perform as she is admitted directly to LKG.*

*Within two months of schooling, despite her many absences due to her poor health, she is performing tremendously. Colouring, saying correct sounds, counting numbers, writing, etc. She is colouring very neatly. In the beginning, she struggled even to hold the pencil. I didn't expect my daughter can perform this much. All these excellences are due to the wonderful teachers. Teachers and other supporting staff are very polite and take good care of the children.*

*I am very thankful to all. Especially my sincere thanks to Krithika mam, Uma mam and my elder daughter's teacher Kalaiarasi. I am grateful to the institution for giving my children the best platform for their education and overall performance.*

## POCKET PHONICS

*Phonics instruction teaches children on how to decode letters into their respective sounds. A skill that is essential for them to read unfamiliar words by themselves. Phonics reading will help children to recognize and associate sounds of the letters of the alphabet in the word they read. This will help them to improve in their reading skills and efficiency. Having letter-sound knowledge will allow children to blend the sounds.*

*The art of reading is well developed through phonics blending. Students start identifying the sound in the words. Phonics is important not only because this knowledge allows children to read on their own, but it is also a learning mechanism. Effective phonics instruction is important because letter-sound knowledge is the foundation needed to build up reading and writing abilities. Teaching phonics through picture takes a tap into their creative mind and sends them on a phonics adventure. Help them spot objects that navigate them from A to Z through photos. The lesson continues at home when the child makes their own alphabet book with their pictures.*

*Here our KG 1 learners presented their understanding of the sound /d/ by showing the objects that start with that sound*

## HEALTH & BEYOND

*Healthy eating is a way of life, so it's important to establish routines that are simple, realistically and ultimately livable.*

*Our Children are learning about the importance of healthy foods and their benefits. Often, we are in a hurry and serve cut fruit to children. It can be interesting to show them what different types of fruit look like, both inside and outside. Encouraging them to touch the fruit, feel the texture of its peel, and name the colors they see. To ensure the child's healthy growth and development. To Strengthen a child's immune system and help fight illnesses, Fruits and health are mutually complemented each other.*

*By making our little ones to prepare fruit salad is an innovative way of learning about the different fruits, color, texture and taste.*

*This indirectly made our children to add immunity to their health along with making them to know about the different kinds of fruits available around us and make them relish its fresh taste.*

*As a part of Independence day celebration all our tiny buds made and tasted a better fruit salad and it was really a fruitful day.*

## BUDDING INFLUENCER

*Practice isn't the thing that we do once in life when we're Good. It's the thing we do that makes us good. We learn together to use the magical words, exhibit good manners in the school environment. Practice makes everything perfect and so the kids practice and reflect on their learning of good manners into their Habits. Good Manners include kindness and respect towards themselves and others.*

*It cost nothing but win many hearts. Good Manners cannot be borrowed from anyone but one has to cultivate them with time. The magical words "Thank You, Please, Sorry, Welcome and Excuse me" cost nothing but Golden words that help us. Our kids initiated to reflect their learning about the Good Manners by practicing lively with their little fellowship in building their personality*

## POTPOURRI

*Azadi ka Amrith Mahotsav-Inculcating the pride of being an Indian in the hearts of our children!*

*The 75th Independence Day was truly one of a kind. The patriotism was at its best this year. Tri color filled the air in a forms manifesting the love for our nation!*

*At TIPS the Independence Day celebrations were such a joyful affair and the spirit of patriotism was evident in the fervor with which the children participated in it. The various attires of all the states were presented by the children to demonstrate that although we come from various parts of the country our hearts beat as one.*

*Right from patriotic songs, dances to skits, we had it all. Children left no stone unturned to display their love for the nation. The finale of each and every person associated with TIPS proudly flaunting the tricolour was truly overwhelming.*

### *Raksha bandhan & Krishna Jayanti*

*Learning Moral Values for children is extremely important. Festivals are perfect learning experiences to teach moral values to kids. Festivals are full of excitement, celebration and happiness. They not only bring joy to our homes but among our loved ones. Here are our children celebrating Raksha bandhan and Krishna Jayanti on full swing!*
