

TIPS BEACON

THE INDIAN PUBLIC SCHOOL, COIMBATORE

Spark Plug

It's that time of the year where everything around us seems bright, beautiful and abuzz with the festive fervor. It can mean only one thing—Diwali, Festival of lights. A festival synonymous to joy, light, sweets, family, friends, happiness, new dresses, sharing, caring and lots more. Embracing our culture and history, Diwali goes a long way in imparting some great life lessons as well.

Advocating true International Mindedness, TIPS welcomes all occasions with great enthusiasm. Diwali was celebrated with great pomp and show in the campus. Children enjoyed painting earthen diyas and making lanterns. An interesting skit on the Diwali story was enacted by the teachers. Followed by a dance and a song by the little ones in tune with the theme.

Going to prove that we love mother earth dearly, Our TIPSCIANS take an oath of celebrating eco-friendly diwali by decorating their homes with earthen lamps, purchase green crackers which is less hazardous, avoiding plastic gift wraps.

Health & Beyond

“To get rich never you risk your health, for it is the truth that health is the wealth of wealth.”

Richard Baker

Imagine watching a 4 year happily eat an oatmeal, finishing the plate and wanting more! At TIPS, getting our children to eat a healthy diet is cake walk! Even the most boring food types can be made interesting. We call it the art of improvisation!

Oats is a healthy food to include in our daily diet. Oat meal has several health benefits. Our young learner explore the importance of healthy foods and their benefits. They enjoyed the preparation of “Oats sweet Pongal“ by adding all nutritious ingredients in it. Everyone loved the taste so much that the dish clean and empty! yummyyummy, happy tummy!

Parent Chronicles

“Story telling is the most powerful way to put ideas into the world today.” – Robert McKee

The story telling session was conducted by Mrs.Kirubaroshini parent of AvaniBharati of KGI- A, students connected well with the story as they all like “gajapatikulapati”. Students thoroughly enjoyed the session and parent shared her experience.

I'm very glad to use the opportunity to narrate the story, the experience of engaging with so many children was a delight. In the story telling session, I narrated the story of 'gajapatikulapati'. The main reason for choosing this story is, it's a very catchy story that my daughter adores. As I began the story kids had a lot of things to say that they could relate to and once I said the word "aachoo" they all got very excited and never missed the chance of saying aachoo every time it appeared in the story. It felt like a rain of aachoo as they said it every time. In the end, the satisfaction of seeing them all enthusiastic and enjoying the story was priceless.

Budding Influencer

The beautiful thing about learning is that no one can take it away from you. It's only you who can spread and widen it to others.

Our KG1 children are learning about the healthy foods which include fruits. To learn deep down into the topic fruits, we started to explore the different kinds of fruits. We differentiated it as one seeded, few seeded and many seeded fruits. Kids learnt about these ,by bringing such kinds of fruits to school as their snacks and extended their learning into understanding.

POTPOURRI

The Youngest Fashion Icon of TIPS

Meet the Suave and cool Mohith Ishaan who has set fashion world ablaze with his unmatched charm. Walking the ramp for FASHION RUNWAY INTERNATIONAL at the Prestigious Junior Model International show Dubai World Finals, Our TIPSCIAN Month Ishaan bags the

1st Runner up Toodler 2022(3-6 years)among 18 countries.

Another award for the 2nd runner up Toddler in JMI Cochin 2022.

Global Handwashing Day is a yearly reminder that hand washing with soap and water is one of the best steps we can take to avoid getting sick and spreading germs to others.

This year global hand washing day comes with interesting theme "Unite for Universal Hand Hygiene,". No Matter your role, you can celebrate Handwashing Day. That's right! our KG student take very seriously and ensure it's done right!

Learning Curve

Information and communication technology (ICT) has been implemented in education to provide various learning opportunities and environments for students. Software like Tux Paint is meant to be a simple drawing program for young children that play a vital role to make kids engaged and helps them to unlock their creativity. Our Little masters integrate the UOI to express their like and dislike. The kids were squealing with delight they used the various drawing tools which have greatly enhanced their learning. Is really fantastic to see their happy, curious and satisfied faces at the end of every class.

Pocket Phonics

A fun fact with Phonics – “ When two vowels go walking, the first ones always does the talking”

Phonics provides children a heads up on how certain letters sound when together, so as they encounter new words they will know the sound. Here's our kids of KG1 reflecting their learning on different sounds. Identifying the picture names and sticking the correct beginning sounds over the picture was the activity. Kids were very enthusiastic in doing this activity along with their peers. As this is the stage where they learn to blend the beginning, middle and the end sounds together to make a three letter words.
