“Remember to celebrate milestones as you prepare for the road ahead”

The much-awaited TIPS KG Sports fest was held on Saturday, 23rd Sep' 23 with great zeal, excitement, and frolic atmosphere. Kids loved to get involved in our Sports Fest!! Well done to all the KG children who took part. We had lots of fun!

TIPS KG Sports fest was fun filled with track and fun games. The program began with torch bearing and welcomed the esteemed gathering and emphasized the importance of sports in a student's life. Special wing also participated in track and fun games which added more excitement to the gathering.

The students entered into the spirit of the occasion in a grand way. An energizing equestrian display set the tone for the rest of the events. Once the event began, the air was filled with cheering and tons of encouragement for the young athletes.

The games included running events like hurdles, relays, fun games, and there was also Parents friendly-games which created exhilaration among the spectators and gave a bit of rest to the participants. Students enjoyed the day with all spectators cheering at the top of their voices.

Health & Beyond

Encouraging the little ones to partake in physical activities outdoors also has a number of advantages during early childhood development. Children of all ages can benefit from being physically active. Physical activity is essential for mental health and well being. Here at TIPS, we encourage children's well being by engaging them in physical activity.

Swimming plays an important role in providing a physical health. Children eagerly participate in all these fun based physical well being activities.

"Take care of your body, As it's the only place you can live".

Play or Exercise a child's body doesn't know the difference. But their mind tells them when they are having fun.

Parent Chronicle

Firstly, Thank you to the TIPS family for having me here. My daughter Husaina is studying in LKG, Tatabad campus. I was invited by Sangeetha ma'am for a story telling session. It was a lovely experience to spend time with the kids. The Kids were very interactive and knowledgeable too. I narrated three stories to them THE WOLF AND THE THE SEVEN LITTLE KIDS, PIP AND POSY- The little puddle and THE GRUFFALO. The learning outcome of the stories were- Not to be greedy ,Intellect mouse and fun time of pip and posy.

Coming in personally to the school during school hours also gives me assurance that the kids are in really good hands and are taken care very well at the same time well taught too.

Glad to be a part of TIPS family

“Story telling is the most powerful way to put ideas into the world today”

No story lives unless someone wants to listen. Our young ones always showed their eagerness to share their knowledge through stories , it teaches them about the world and everyday life. Hearing stories can equip children with skills that they will use through out their lives.

Some times magical movements happens in our kids learning process when they connect other sources with their present learning. Such occurrence were evident when our KG kids were taken to Grade 2 to experience the “Tamil Exhibition” related to their present theme “Sharing the Planet “.

The use of ICT in KG can enhance the learning and development of all key learning areas including communication and collabrations.

Potpourri

“The aim of art is not to represent the outward appearance of things, but their inward significance”
- Aristotle

Art always makes our little ones blissful. our KG 1 kids were encouraged to express their creativity with fun and easy art activities. Children enjoyed being creative and exploring different art supplies and materials.

With their young mind and childish touch any outcomes get to be more adorable. Ownership were given to make their own choices and choose their favourite activities to make themselves more invested in the learning process.

“Celebrations makes life creative and active. It makes each one participate and cherish special moments to be memorable”

When our kids are involved in each celebration, it becomes a perfect time for them to gain knowledge of every events & culture. They celebrate it with more involvement.

“Learning never exhausts the mind, every celebration becomes a part of learning”.

Learning Curves

Animals are fascinating because how they move communicate and interact.

Education is lifelong journey. There are always new things to discover, new ways to improve ourselves and new challenges to face. "The beautiful thing about learning is that no one can take it away from you."

Our little buddies started to gather and learn facts in the books.

"The important thing is to never stop questioning".

Our KG 1 tiny tots started exploring the names and sounds of animal. Additionally, dogs are highly liked animals that make wonderful family pets.

"The only source of knowledge is experience." Such type of experience are provided to our KG toddlers through Quick reads-"Noah's Arc".

They participated in clay modelling activities to learn about the life cycle's of butterflies and frog.

Pocket Phonics

'Phonics should be the foundation of a curiosity about how word works.

It has been shown that teaching children to read by utilizing sounds instead of individual letters helps them focus on mastering phonics skills.

Some classroom activities evokes kinder minds when KG kids were given play time to explore their creativity, they were encouraged to reflect on what they have learned as they had fun.

'Play is our brain's favourite way of learning.'

Phonics enables better comprehension of sounds, words, pronunciations and sentences. Our kids understand what they are hearing and reading, it makes it easier for them to grasp complicated concepts. Apart from making learning easy, phonics teaching also make learning fun. Our little tots made it fun.

Phonics also raises children's phonemic awareness. This is the ability to understand how words are formed, and to break down into individual sounds.
