

# TIPS BEACON

**THE INDIAN PUBLIC SCHOOL - GOIMBATORE**

## ***SPARK PLUG***

As an IB facilitator, I believe in nurturing holistic development, and fostering creativity. This month saw a multitude of creative endeavors, from engaging in literary contests to vibrant Diwali celebrations, nurturing students' innovative spirits. It was also a time for knowledge and updates through Quizzards competitions and Olympiad exams—a month filled with engaging activities and energizing sports events

The 'How we express ourselves' inquiry empowered learners to explore artistic expression using light and sound, fostering creativity & transdisciplinary learning. Students showcased their understanding by creatively employing light and sound, merging science, technology, art, and emotions for a holistic learning experience. This fusion provided a unique avenue for art, technology, and emotions to converge. Actively engaging in hands-

-on activities, discussions and collaborative teamwork, students took charge of their learning journey, aligning with the IB learner profile—encouraging reflection, open-mindedness, risk-taking, creativity, and diverse perspectives.

# LEARNING CURVE

Grade 5 explored 'I Am the Internet,' discussing interactively during the Hindi classes on the chapter 'We Will Change the World'.

"कक्षा पाँच की गतिविधि - 'मैं इंटरनेट हूँ'  
कक्षा पांच के विद्यार्थियों ने 'हम दुनिया बदल देंगे'  
अध्याय पढ़ने के दौरान एक दिलचस्प चर्चा में भाग लिया। यह अध्याय मुख्य रूप से महान भारतीय वैज्ञानिक और भारत के 11वें राष्ट्रपति, डॉ. अब्दुल कलाम जी और उनके अंतरिक्ष और विज्ञान के क्षेत्र में बहुमूल्य योगदान के बारे में है। छात्र इस अभूतपूर्व व्यक्ति के बारे में जानने के लिए उत्साहित थे। वे रॉकेट लॉन्च के फायदे और नुकसान पर चर्चा करने में भी उत्सुक थे और बच्चों ने उसी से सम्बंधित रचनात्मक पोस्टर भी बनाए। यह एक इंटरैक्टिव, सीखनेवाला, और सभी की राय की अभिव्यक्ति से भरपूर सेशन था।

# PARENT CHRONICLES

It was a fantastic day with the students performing brilliantly. They displayed determination, perseverance and a great effort. Not only the good performers, all the children were given opportunity to participate and improve their skills in the events. Even though the efforts of the organizers were evident, they just took a back seat by putting the children in front right from the MC until the vote of thanks that made it look as if the children organized the entire event. When the event paused for a few minutes due to rain, the coaches just put us at the edge of our seats by their amazing dance performance.

Highly appreciate the spontaneous performance that put a smile on our face. We as parents felt so happy and contented to have our children amidst such positive energy. It was a goosebumps moment for all of us when the children rose back and ran even after falling down on the track. Not only the children, we as adults also learnt that, get back when you fall down and remember that failure is a stepping stone to success!

*With best regards,

## Answers:

1. Books
2. An aglet
3. Tulips
4. To store pocket watches.
5. 1993
6. Lacrosse
7. The USA
8. Zero
9. Nose
10. Cheese

**GRADE 3**

# HEALTH AND BEYOND

Those who have embraced yoga in their lives have unfolded a beautiful chapter of life which is about living healthier, staying fit, living longer and happier. Physical fitness is of two categories, health related and motor related. The health related components of physical fitness are of great importance because they make an individual fit, functional and productive for everyday living.

Yoga is an ancient discipline which has a Sanskrit meaning called “union.” It combines bodily processes with breathing techniques, meditation and mental exercises in order to bring a sense of calm and composure in life. The combination of physical postures, controlled breathing and mindfulness techniques helps students develop better attention spans leading to improved academic performances and productivity.

Yoga also takes the responsibility to devise a system, method and aims to attain peace. Our educational system becomes effective only when it incorporates into itself ethical practices and this is well attained through practicing yoga at schools.

When you practice yoga once a week  
You change your mind  
When you practice yoga twice a week  
You change your body  
When you practice yoga everyday  
It will change your life

GRADE 5

# BUDDING INFLUENCER

Our school's Diwali celebration was a colourful and rich blend of culture and awareness. The puppet shadow storytelling, portraying the Diwali tale through the captivating interplay of light and shadow, stole the show. Mesmerizing performances included traditional dances expressing the spirit of Diwali in both North and South Indian styles. Children delivered Diwali speeches, emphasizing values. An eco-friendly Green Diwali awareness initiative highlighted the importance of celebrating responsibly, creating a memorable and conscientious festival atmosphere.

Green Diwali involves celebrating the festival in an eco-friendly and sustainable manner. This can include using LED lights, avoiding firecrackers to reduce air and noise pollution, opting for handmade and recyclable decorations, and promoting awareness about environmental conservation during the festivities. It's a way to enjoy the festival while being mindful of its impact on the environment.

Students of grade IV, created awareness on a green Diwali by organizing campaigns and presentations. Students understood that social media platforms, posters, and community outreach could be effective tools to share information and encourage others to adopt sustainable Diwali celebrations.

# MIXED BAG

Enjoy the darkest night, as the shadows of a thousand years rise again, unseen and unknown voices whisper in the trees, saying that it is Halloween!

Halloween is a secular holiday with pagan and religious origins that is observed on October 31. A celebration where young children dress up in scary costumes and go door to door asking for candies. When small children knock on the door and say "trick or treat," it is pure love. Our Grade 1 TIPSians enjoyed painting their faces and frightening their classmates with eerie antics. Spending the day with the spooky young ones was enjoyable. Our little minstrels are starting to understand that Halloween is really a pleasant day and that all of the scary decorations are to be pretended. Managing fears is one way child develops emotional regulation skills. So Happy Halloween !!.

# READERS' RAVE

**Book:** The Murder of Roger Ackroyd

**Author:** Agatha Christie

This book is one of the investigative novels of the detective character Hercule Poirot. As the name states, this involves the murder of a man named Roger Ackroyd. Dr. Sheppard, one of the characters of the story is the narrator. Hercule Poirot is hired to investigate the murder. The plot is very intriguing with the way Hercule Poirot investigates along with Dr. Sheppard by his side.

Our narrator and Poirot become good team in solving the mystery. The end so shocking that it takes some time to digest. I would like to end it with some personal remarks. It is an awesome book to which I was hooked and so will others be. This crime thriller just involves slow and steady clear investigation of the murder. All the best for the mystery and enjoy the reading.

**Book:** Geronimo Stilton – All because of a cup of coffee.

**Author:** Elisabetta Dami

This book 'All because of a cup of coffee' made me to read more and Geronimo Stilton is my all time favourite series now. This story is funny and crazy. I loved it. The story goes like.... One morning, Geronimo went out for a cup of coffee and came across the most beautiful rodent. He planned to win her heart so he joins his adventure family on a quest to find the Eighth Wonder of the World believing it will impress the rodent. Read the book to find out what happened to Geronimo after that. My favourite character is definitely Geronimo because he is the character that everything always happens to. These books has great pictures and words are sometimes wiggly in color. The way the author arranged the pages kindles our interest to read.

**Akshaanth Sushill.G**

**Grade 3C**

**Book name:** "Cars: The magical story of the movie" by Parragon books.

This story is about a racing car named Lightning McQueen who considered himself a champion and was very arrogant. It ended up as a three way tie. On his way to California for the final race, he lost his way into a small town called Radiator Springs. He met a famous retired racer named Doc. Hudson there who taught him not to be arrogant and how to respect others. In the end, he wins everybody's love and respect. This book taught me to be nice to everyone and listen to other's advice.

**-GRADE 2**

# EXPLORING EXCELLENCE

Students of PYP were engaged in various literary competitions showcasing their creativity and linguistic skills through various forms of expression. These events provided a platform for participants to explore and present their unique perspectives, fostering a love for literature and honing their communication abilities. Such engagements not only enhance their literary prowess but also promote self-confidence and critical thinking.

Track fest at TIPS is an event festival where our little athletes came together to compete in a variety of track and field events which promoted athleticism, teamwork, and individual achievements. This gave them a platform to showcase their skills, set personal records, and contribute to the overall energy and excitement of the track and field community.

Participating in Olympiad exams provided a platform for intellectual challenge, encouraging students to explore subjects in greater depth and breadth. Our students enhanced their problem-solving skills and critical thinking abilities through the complex problems presented in Olympiad exams. Moreover, it promoted a healthy competitive spirit, encouraging students to strive for excellence. It will lead doors to various scholarships, recognition, and opportunities for further education.
